Hüdig + Rocholz

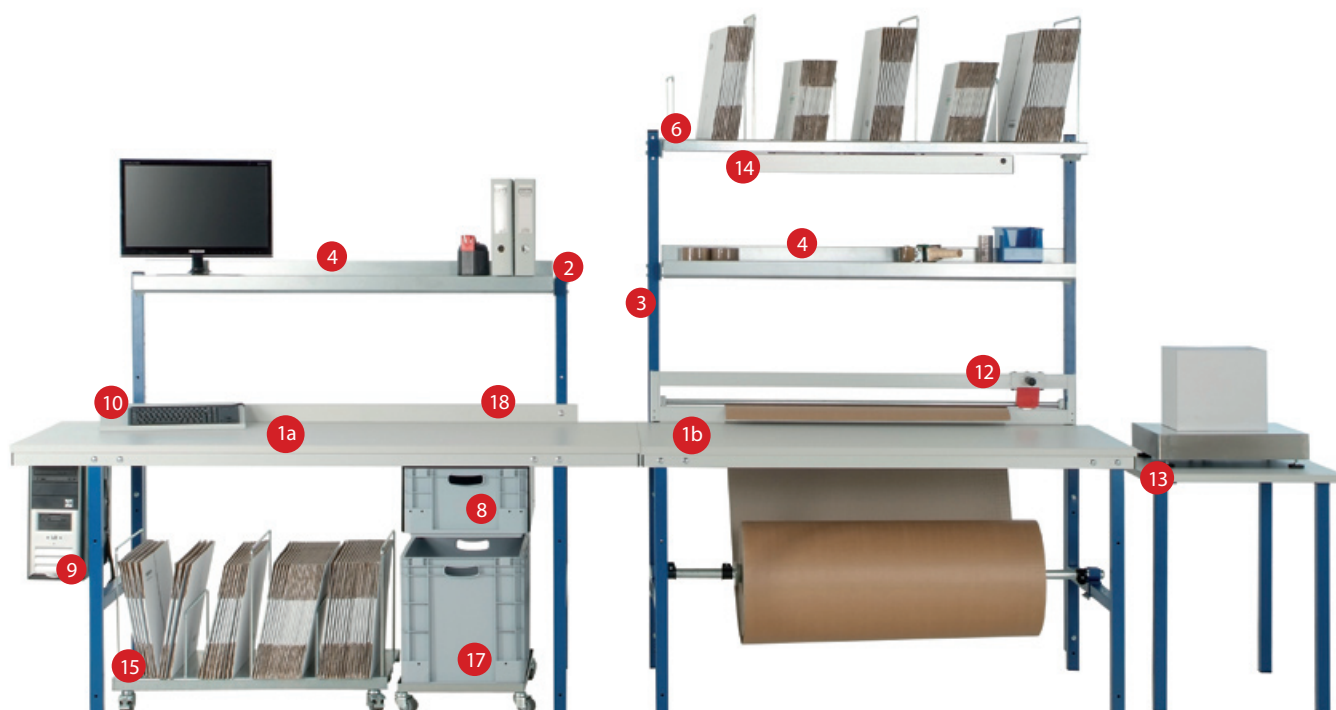

The new practical basic system by Hüdig + Rochoholz

SYSTEM 2000basic was developed as an inexpensive basic table system. Many users need a simple packing table and workbench system with the minimum of functions and a selective accessories programme which satisfies the following requirements:

- Stable design
- Table with level compensation
- Worktop thickness 25 mm, load bearing capacity 200 kg
- Light grey melamine resin surface coating on the board
- Shelves in zinc plated sheet steel
- Cutter with replaceable cassette, titanium-coated blade
- High functionality
- Selected range of accessories
